Projects

Smart Rail – Intelligent Railway Assistance Web Application — [Team of 3]

[Source Code](#)

Supervised by Dr. Rahul Mishra, CSE Department, IIT Patna

- Developed a **full-stack web application** offering comprehensive railway services, including **PNR status checks, train schedules, train searches, ticket booking, and cancellations**.
- Built a custom **railway database and internal API endpoints** to serve accurate and real-time train and booking information without relying on external APIs.
- Designed and implemented a **normalized and efficient MySQL database schema**, optimizing query performance and ensuring data integrity across booking, scheduling, and user modules.
- Implemented **user authentication and encryption** to ensure data security and enhance system reliability.

Smart Product Pricing – Amazon ML Challenge 2025

[Source Code](#)

National-level ML Competition

- Built an end-to-end data pipeline for price prediction on 75K+ products using text and images.
- Engineered structured features from catalog text (units, pack size, quantity, brand).
- Fine-tuned **DistilBERT** for text representation and trained a multimodal fusion model.
- Evaluated and compared models using **SMAPE** with iterative error analysis.

Achievements

- * Rated **Specialist** on **Codeforces** with max. rating **1585**. Profile: **VIVEK6416**
- * Rated **4 Star** on **CodeChef** with max. rating **1847**. Profile: **VIVEK3764**
- * Got a global rank of **98** in **Codechef Starters165 (Div. 2)** among 20,000+ active participants.
- * Secured **Global Rank 1824** in the **Meta Hacker Cup 2025 (Round 2)** competitive programming competition.
- * Achieved a **Global Rank under 200** in the **Amazon ML Challenge 2025**, a nationwide machine learning competition organized by Amazon.
- * Ranked in the top **2.54%** in JEE Advanced 2023, among over **0.18 million** students across India.
- * Ranked in the top **0.46%** in JEE Mains 2023, among over **1.1 million** students across India.

Technical Skills

Languages: C, C++, Python, Java

Web Development: HTML, CSS, javascript, React.js, Node.js, Spring Tools

Databases and Tools: MySQL, NO SQL, Git, Github, Linux, REST APIs, Docker

AI/ML: Machine Learning, Deep Learning, Supervised & Unsupervised Learning, CNNs, RNNs, LSTMs, Transformers, LLM, Prompt Engineering, Agentic AI, Multi-Agent Systems, Feature Engineering, Model Evaluation
